

About Unity Care

When we founded Unity Care Solutions in 2006, it was to provide exceptional nursing and domiciliary care services to the community. We're as passionate about our work today as we were then. Our team of 120 staff includes RN1 Level 1 adult nurses, specialist paediatric nurses and trained care support workers.

Unity is registered with the Care Quality Commission and is a member of the UK Home Care Association. So you can be sure of the highest standards when you choose Unity as your care provider.

Unity Care Solution Services

Unlike many homecare agencies, Unity works with adults, children and young people.

As well as trained care support workers, our team includes qualified nurses specialising in complex and clinical care. Contact Unity for:

- In-home care support
- Home nursing & palliative care
- Specialist paediatric nurses
- Respite and convalescent care
- Live-in carers
- Support for people with learning disabilities

When you choose Unity, you can be sure you're in good hands. We'll carry out an initial assessment, work with you, your family and your healthcare professionals to design your individual care package. And then we'll deliver it – caring isn't just our job – it's our passion.

Unity ... we're passionate about what we do ... and we're proud of it.

The Unity Team

Caring for people who can't live independently is about more than just performing practical tasks. It's about restoring and maintaining a sense of dignity, respect and self-esteem. That's what you would do, so it's important we do it too.

Our nurses and care support workers are backed by an experienced and compassionate management team which includes nurse-assessors, case managers and trainers. Our skilled staff includes:

- RN1 Level 1 adult nurses
- Paediatric nurses and nurses with child experience
- Trained care support workers
- Specialist learning disabilities support workers

All our staff undergo regular training to make sure they are properly equipped to deliver the care you need. Our training division delivers training to other homecare providers and nursing and care homes. This means the Unity team is backed by the highest level of expertise.
